```
(10:54:31 PM) benj: dachary: wiii ?
(10:55:50 PM) dachary: je vais me pencher sur le scenario de restauration de la base adhérent a partir d'une sauvegarde, en cas de catastrophe
(10:56:10 PM) dachary: est-ce que tu aurais quelque pointeurs a me conseiller pour y parvenir ?
(10:56:37 PM) dachary: je suppose que le plus simple consiste a repartir d'un backup de lsd
(10:57:09 PM) dachary: mais je n'ai aucune idée, une fois le backup restauré, de la façon dont je peux m'assurer que la base adhérent est ok
(10:57:56 PM) dachary: je suis tenté de faire l'expérience dans une machine virtuelle, juste pour voir
(10:58:29 PM) dachary: mais je crains que des cron ne fassent des interactions avec l'exterieur et que ça interfere avec le fonctionnement du vrai site
(10:58:35 PM) dachary: benj: ^
(10:59:15 PM) dachary: c'est notre responsable produit qui est inquiet de sa base adhérent. Elle lui tient a coeur. Je le comprend un peu ;-)
```

```
theocrite theo_taf
(11:46:47 PM) benj: moi j'ai envie de dire, dump sql ? :)
(11:56:10 PM) dachary: benj: oui :-)
```

```
Mais quelle sorte de vérification je peux faire *apres* restauration pour valider qu'elle est ok ?
(11:56:53 PM) benj: le test simple c'est par ex. d'utiliser dtcmanager en ligne de commande
(11:56:57 PM) benj: pour faire un test
(11:57:05 PM) benj: genre
(11:58:34 PM) benj: « /var/www/adherents.april.org/htdocs/scripts/dtcmanager spamtest confirmation-adhesion-personne-1 ldachary »
```

(11:58:51 PM) benj: ça devrait cracher un truc comme quoi il t'enverrait tel email

(11:58:53 PM) benj: ça valide pas mal de choses

#8 - 24/12/2012 13:04 - Loïc Dachary

- Statut changé de Nouveau à En cours de traitement

- Assigné à mis à Loïc Dachary

TODO:

- installer <http://gna.org/projects/gdtdc> sur une machine de test
